

# DIFFNEY – BLACKROCK SHOPPING CENTRE

COMPLETED December 2020

**Client:** Diffney  
**Architect:** Project Design Architects

## Summary

The project consisted of the total refurbishment and internal fit-out of an existing retail unit in a busy shopping centre in Blackrock, Co. Dublin. The existing unit was entirely refurbished within a 6 week period.

## Key Issues

- The site, being centrally located in the middle of a shopping centre undergoing a major refurbishment, required detailed pedestrian and traffic management plans to ensure safety of both members of the public and various construction staff members.
- Complete strip out of all existing internal finishes.
- Total internal fit-out of Ground Floor retail unit, including new flooring, clothing display areas, changing rooms and staff areas
- Installation of significant new mechanical and electrical packages.
- Installation of new windows and shopfront.
